THE MERCEDES-BENZ E-CLASS

www.mercedes-benz.ph

Photo may vary from actual unit.

Photo may vary from actual unit.

Evolves with you.

The new E-Class is the visual embodiment of the link between the legendary E-Class and the Mercedes-Benz EQ electric vehicles. The radiator grille continues to differentiate between the central star and the vertical star, depending on the model.

www.mercedes-benz.ph

Unique from every perspective.

The dynamic tail end of the new E-Class is a true eyecatcher. In the daytime this is due above all to the powerful design. And at night it’s thanks to the two-piece LED rear lamps with their innovative contour. Visually linked in the centre to form a unit, they emphasise the width of the rear section and display an exciting star-look pattern.
